WE do what is probably the largest Bird Seed business in Sydney, and, having exceptionally complete facilities for buying and re-grading, we submit the following quotations in full confidence that our prices are right and our quality unequalled. The seed is all heavily cleaned and freed from dust and other impurities.

YATES' TOP-NOTE MIXTURE for Canaries, Finches, and other small birds, is made up in scientific proportions, and contains all seed necessary to keep cage birds in robust health. Furthermore, we vary the proportions to suit the requirements of birds at the different seasons of the year.

YATES' PARROT FOOD for Parrots, Cockatoos, Parrakeets, etc., is made up from selected seed and grains, such as Maize, Sunflower, Wheat, Oats, Hemp, Peanuts, etc., and is mixed in the proper proportions to keep this class of birds in perfect health and plumage. This mixture ensures a varied diet such as the birds get in their wild state.
